LET'S GET TO KNOW PROBLEM DESCRIPTION

A global automobile company that sells its own cars. BMW's headquarters are located in Germany. Because there are many fans of this brand in the Middle East, we decided to open our branch in the Kingdom of Saudi Arabia, so this branch must have a comprehensive and complete system that we provide to our valued customers regarding car and purchasing information, and we try to provide our customers with everything that is best.

Creating an easy-to-use electronic platform for our new branch in the Kingdom of Saudi Arabia. This platform must provide comprehensive information about luxury cars available for purchase, including their features, specifications, and prices. In addition, the platform should have an easy-to-use interface that allows customers to easily browse available cars and make purchases

NOW WE NEED TO KNOW
